

# AARYAN PATEL

Intern - Full stack developer

aaryanpatel683@gmail.com • linkedin.com • Khargone, MP, India

## Summary

---

I'm a Full Stack Developer who loves using Next.js and Generative AI to create cool web applications. I've picked up my skills through hands-on projects, also have solid grip on web development and design. I really enjoy building AI applications.

## Skills

---

React, PostgreSQL, NextJS, Javascript, Python, MongoDB, Full Stack Development

## Experience

---

### Apniclass

Dec 2022 - Jan 2023

Intern - Full stack developer

- During my internship, I developed a StackOverflow clone website, integrating a chatbot that answers programming questions and building a social community where users can post images and videos.

### BuildfastwithAI

Aug 2023 - Present

NextJs developer

- As a founding engineer at BuildfastwithAI, I play a key role in developing innovative SaaS products. At BuildfastwithAI, we create software solutions, organize learning cohorts, and offer free workshops to empower individuals with AI knowledge. We also provide consultancy services to help companies integrate AI into their products.

## Projects

---

## **StackOverflow clone website**

During my internship, I developed a StackOverflow clone website, integrating a chatbot that answers programming questions and building a social community where users can post images and videos.

## **College website**

A website for my college where we can find easily our class notes, assignment, practical and many more, and also can upload so we couldn't store files in mobile and get easily.

**Technologies:** Mern Stack, Firebase

## **Domaindigo**

This is a web tool that generates unique domain names that are available to make your own, It uses Llm to generate unique name from user query and uses a domain api to make sure the generated name should be unique.

## **Ayurveda GPT**

this is an AI chatbot that is trained on Ayurveda data just like chatgpt, build it using NextJs, Langchain and Vercel AI SDK.

**Technologies:** NextJs, Langchain, Vercel AI SDK

## **ChatwithPDF**

this is an AI chatbot that is trained on Ayurveda data just like chatgpt, build it using NextJs, Langchain and Vercel AI SDK.

**Technologies:** NextJs, Langchain, Vercel AI SDK

---

## **Education**

**Jawaharlal Institute of Technology, Borawan**

B.Tech. - I.T. (2nd year)

2021 - 2025
